

3/22/98

Deb,

First question: Why are you staying on the hill rather than moving to the other farm? I thought you were afraid of getting too old to climb the hill.

Second question: What's wrong with the trailer you've got? Why are you replacing it? Do those things wear out that fast?

Carol took the social work job at Volunteers of America. She will be working with The Homeless. As I said, it is a \$6 cut in pay, from \$18 to \$12. But her other job was getting unbearable because she had nothing to do. Also, it was going to end at the end of April. She gave 2 weeks notice, so she will be at her current job for a while. The time on the new job will count toward her certification, which should eventually help her get a better social work job.

Steve
