Dear Amy,

I hope you have a nice birthday, even if Dubya wins. "It takes a nation of millions..." is on the way and I was able to get you a subscription to Fast Company.

I wonder how many people vote for Dubya only because Gore is pro-choice. For many people, that is the only issue they can grasp. I wish we could just have a national referendum on the issue and put it to rest so that it no longer interferes with other national business.

Love,

Dad and Carol
