

November 12, 2001

Alan,

I went to South Haven and brought back the slides today. There are 400 of them. When can I bring them over? Tuesday evening is good for me because Carol is going out to dinner with a friend. But any evening is OK. Some evening when you've got a couple hours to work on them. Maybe there is something I can do to make the process go faster, like cleaning the slides, putting them into the holder, etc. We could do a batch and I could bring back the CD, use my TV PhotoViewer software to make an album (diskette), and then see how they look.

Many of the slides are about 50 years old.

Steve
