Amy and Tom,

That picture was from a slide Edith sent me after we divorced.

If you are interested in old pictures, I have 412 old Harry family pictures I can send you on a CD - actually, 6 CDs. Most are junk, but there are a few you might find interesting. Each CD contains "thumbnails" that allow you to quickly browse thru them.

I had a friend scan all my parents' slides, but now I have my own film scanner. Problem is, my PC is old and slow and I don't want to take on any new projects until I get a new one.
