Amy,

I think I could find a place for a picture.

Sorry things aren't going well for you.

My job is tolerable. It helps that I'm making good money on top of my \$1000 a month State pension. Carol is officially retired. She is reading up on neurofeedback, getting ready for a trip to Maine next week to spend a couple days observing a neurofeedback practitioner. She has a sister in Maine, and will stay with her.
