

3/14/03

Amy,

So, are you still employed at Intrado?

We are taking a short vacation. We are leaving Sunday and going up north for a couple of days. There is more ice on the Great Lakes than there has been for decades, and I might be able to get some neat pictures. We will return home on Tuesday.

Lakes Superior, Huron and Erie are completely frozen over. Lake Michigan is frozen north of Traverse City.

We've had a lot of cold, but not much snow.

The next several days are supposed to be unseasonably warm - into the upper 50s. And cloudy, which is not so good for taking pictures.

Love, Dad
