Alan,

We can afford to go to Hawaii, but we can't afford a DVD player. But we can play the DVD on our computer.

Sounds great! Thanks for the offer! I used up a roll of film on a sunset last night. And today I got a picture I have hopes for of a barbed wire fence running down to a rocky shore.

Actually, we've been putting off getting a DVD player until the DVD RW's come down in price.

Steve
