

Lois,

Shirley is back in town, but busy with her house and hasn't talked to her lawyer yet. I think she has an appointment sometime before the end of the week. I sent a letter to Mike asking for either the entire personnel manual or the sections on Progressive Discipline and Dismissal. It is a FOIA request. I also sent a letter to Tama, copy to Anne, asking them to pay me for 2 hours they shorted me on my final paycheck.

I don't know what Michael could have done to keep you from printing off stuff on the Intranet. The Personnel Manual was set up as a web page rather than a document (Word, PDF, etc.), which makes it inconvenient to print. But it should still print. IS pretty much does as they please, regardless of user needs.

Shirley says she is going to have email soon. She has a computer, just needs to get it hooked up.

I hope the weather stays as nice as it's been for your trip to the UP. We went to Ludington last weekend and picked 28 pounds of blueberries at a U-pick plantation. Gave half to Carol's kids, but the rest we've been eating fresh, and they are wonderful. On Sunday, we canoed the Manistee River from Hudenpyle Dam to Red Bridge, a 3-hour trip. It was beautiful. There was a little more fast water than we were used to, but we had no trouble. We enjoyed listening to the rushing water.

We volunteered to collect signatures to get a ban on dove hunting on the ballot, collected over 100 signatures at the Old Town Blues Festival last night.

Steve
