

Walt,

I heard your surgery went OK and you are recovering.
Are you back to normal?

Tom sent me the book "Between a Rock and a Hard Place"
about the kid who got his arm stuck under a boulder
and had to cut it off to escape. He is the sort of
mountain climbing nut who should have died long before
that happened, but the book is pretty good. I'm done
with it. Let me know if you would like to read it and
I will bring it next time I come to South Haven.

Steve
