Alan,

The Kresge exhibit was great. Super-realistic paintings that will have looking along the wall to make sure you are seeing a flat canvass.

I didn't recognize the picture, but later I noticed the name: Valley of Fire State Park. That was our first stop after leaving Las Vegas.

I've been reading up on Florida. We are planning a 2-week trip early next month. We plan to fly down, then rent a car.

Steve
