

April 22, 2005

Kelli and Tom,

A few years ago, I taped the Beatles Anthology, a 6-hour TV series. Now I've copied it to DVD, cutting out the commercials. If you'd like to see it, I'll send you a copy. Let me know if you want the VCR tape or a DVD.

We've had an incredibly beautiful April, in the 60's, 70's or 80's every day, and no rain. It was like an extra month of summer, except with no leaves on the trees. For the next few days, however, we are going to have cooler weather and a mix of rain and snow.

How's it going with you? When are you going to Colorado?

Steve
