

July 25, 2006

Patrick,

On the State Journal's website, you were asked how you would vote on a proposal to amend the Michigan Constitution to define life as beginning at conception. You said you would vote "no". I thought you were pro life. Exactly what is your position on abortion? Would you outlaw it?

Another question: What is your position on the use of embryonic stem cells in medical research?

If you have position papers on these subjects, please email them to me.
