

July 27, 2006

Patrick,

Thanks for your call this morning in answer to my email. I plan to send the following letter to the State Journal, but I wanted to make sure I have not misrepresented your views. Here is the letter:

"The State Journal picked Patrick Baker as its choice for representative in the 68th district based partly on his willingness to raise the individual income tax to pay for the services Michigan citizens want and need. I, too, admire this courageous stance, and there are many other things I like about this candidate. However, the Journal failed to point out that Mr. Baker is pro-life, which means that given the opportunity, he would take away a woman's right to terminate a pregnancy. He is also against embryonic stem cell research. These are positions voters would not expect from a Democrat."

Please let me know if anything I've stated is incorrect.
