Hey. I think I have finished scanning all of Mother's slide collection. The last ones I did were all the trip pictures and the wedding pictures. The trip pictures are probably of interest only to Mom, since she hardly ever took pictures of herself and Dad.

On Sunday, I copied them all to her computer. They are in the folder "Harry Family Slides" in "My Pictures". I put a shortcut to "Harry Family Slides" on her desktop. Within the Harry Family Slides folder I've got subfolders for Grandkids, Rice Relatives, Weddings, Trips, Silver Buck, etc. The attached file shows what it looks like on my computer.

I didn't have time to teach Mom how to look at them, so if you get a chance, give it a try.

If you ever need to find the slide that goes with an image, here is how to do it: On each slide, I wrote an identification number: E36, SP11, G3, etc. That is also the file name. For the most part, all slides in a carousel start with the same letter. This also means that if you ever run across any slides that don't have a number, they probably have not been scanned. Let me know if you do, and I will scan them.

I probably made some mistakes in categorizing the pictures. Feel free to move mis-filed pictures to the proper folder.

Deb, would you like me to send you the collection? If you have a DVD drive on your computer, it would be easiest to send them on DVDs. Otherwise, I can put them on CDs.
