Hi Marcia,

My wife Carol deserves the credit for the visit to Jim and Edie. She had contacted Edie to suggest neurofeedback treatments for Jim.

Thanks for the invite to Washington. I'd love it. Actually, I've been to Seattle a couple times. My second (of 4) wife was from Seattle. We drove up to Paradise on Mt. Ranier and went out to the coast, among other things. That was 30 years ago.

I'm enjoying my retirement - finally becoming convinced I really can live on my pensions. I've got a one-week hiking trip to the Utah canyon country planned for April.
