

November 26, 2007

Dawson,

I found a source for the information on the amount of pension income in Michigan that is going untaxed - the information I couldn't get from Treasury. I got it from the IRS' website. The address is:
<http://www.irs.gov/taxstats/article/0,,id=171535,00.html>.
Scroll down to "Tax Year 2005: Historical Table". All the states are listed. Click on Michigan and you get an Excell file. It shows amounts of income in AGI by type (salaries and wages, pensions, IRAs, etc.)
