Sue,

Tell Grant I enjoyed his letter. I haven't decided yet if I'm going to do a trip this year. Wingate II sounds good. I scanned Grant's letter and emailed a copy to sister Laura.

We are watching the mergansers, goldeneyes, and buffleheads on the Grand River, which runs along the edge of our back yard (here in Lansing, MI). We watch from the warmth of our kitchen. The waterfowl arrive here from up north about the middle of January. We have open water, which might be getting scarce farther north. Picture attached.

I am running for state representative. Nobody takes me seriously, not even my wife. My website is www.stevharryforstaterep.org.
