

11/17/08

I've finished putting old family photos from one of Mom's picture albums on my website. Go to www.stevharryssite.com and under Family Photos, click on Other Old Photos. I put over 250 of them out there. I mostly did old black and whites, but there are a few color pictures. Click on the small photo to see the larger version. If there are any you want removed, let me know. If you can suggest improvements to the captions, do so. I plan someday to sit down with Mom at a computer and get more information for captions.
