Paul [Roney],

I really like that letter. Thanks.

I have thought about how to get the Legislature to give this subject their attention. One idea I had was to appeal to senior citizen groups. Once a week, the State Journal has a long list of senior events and meetings. I was thinking of contacting these groups to see if they'd allow me to make a presentation. If we could get the backing of a substantial bunch of senior citizens, we could stage a demonstration in front of the Capitol.

Steve
