

4/5/09

Thanks, Paul. I few days ago, while cleaning out some old emails, I found a message I got several months ago from a senior who agreed that the state should be taxing pensions. That is 3 of us! Maybe my article will turn up some more.

By the way, I paid my own professional tax preparer to do the hypothetical return for the working mother with 2 kids. I tried to do the federal return myself, but it was much too complicated.

Steve

Good job!
