Sept. 28

Dear Shirley,

I ate dinner yesterday with Pete and Eleanore at the Eatery . I asked her if she had heard from you and she said she had not so I guess it is up to me to write and find out how you are doing. How are your legs? Is the early rush calming down at college? How many students do you have in your dorm now? Have you seen Fay recently? If so how are they?

I had one letter from Nina . I think they were glad to get home. They found their yard in better shape than usual. Her flowers were even in great shape.

I have my ticket for Florida at Christmastime already. I went in to ask about it and she told me they were already getting reservations and she would advise getting it as soon as possible. I only plan on staying a week. I leave and arrive on a Tuesday . Jack is getting almost the same schedule so only one trip to Orlando will be needed to pick us up .

I have almost every thing I need for the genealogy except the Hodgmans . Alice Overhiser is either too tired or lazy to get anything to me I have visited her twice and written her but almost no results. I even asked her to give me her sisters addresses and I would write to them but haven't gotten them.

I will try her sister-in-law next. George V.W. told she is nice or rotten according to the mood she is in so I have been reluctant to get in touch with her.

Janis is still enjoying the excitement of work and of course that involves showers , parties, etc. She naturally is much more interesting to be with.

Kelly's wedding is off for now at least Greg decided he wasn't ready for marriage.

with love,

Elva
