Shirley A Rice
1116 Merrill St
Kalamazoo
Michigan

Dear Shirley, My pen doesn't seem
to be at hand and for a wonder
a pencil is, just finished
washing. Had emptying water,
glad I am not considered able
to hang out clothes, quite cold
for that. It's the coldest job I know
unless it's blacking stoves, what-
do you think? Home will never be
the same without a stove to
blacken will it? Are sending
you a box of odd and ends.

It might be best to put the
meat in your oven and heat
thoroughly. It was baked Sunday
also the biscuit would be like
new if heated well. We just had
them last night. Also the cookies
were baked day before yesterday

and need freshening. I thought
them good when first out of oven.
I looked for Elva but today but
I guess not as it's nearly noon.
We were at their place by dinner
Sun. Lois and Cal came for us.
They were here when we got
home from Sunday S. Cal didn't
say a word and it was funny
to hear her explain that we
were to come to "we's house to
dinner" Of course he purposely
let her tell it.

Elva said she cried when she
first woke up the other morning
saying over and over "I want
my singy. I never asked her
how it spelled that
Her whooping cough is

some better, probably much better by now.

No we havent seen or heard of Bill. John Harry and Martha were married Sun. at the church just a simple wedding after the morning service.

No attendants. I hear the mopz going out in the kitchen. I think Dad will be glad when I am a full hand again. I have been doing quite a lot of work lately.

We have lots of carrots. Will put in some if there is room but don't go without. Its as cheap food as you can buy. I wish you had some of them.

have to throw out some sweet
butchering. Eva takes a lot.
will send some bacon and ham
when it is done. Are having
Niffingier or cure it.

yes Mr. Schieb is a fine friend.
you didn't say whether you were
eating alone or with Arletta.
Must help get the box ready.

Mom
