Dear Shirley - Thursday evening again. The days do have a way of moving right along no matter what you do. Have been at Mrs Kint's this afternoon helping make some new curtains for Hall. They are pretty figured drapes, full length. are going to look real nice I think. Elva came out with Lois to stay with her Granddad and took Vera and I back. He said she was good but kept him busy. Alice and family came Sunday afternoon and went back Tuesday. Made up their minds to come all in a minute as usual. Alice said Gabe has thought some of storing their goods this summer and coming over here. They pay thirty some dollars rent besides water and light. So it would be cheaper to store as they would probably be here most of time anyway.

Elva brought out some stuff to send you. thought we might not have sent yet. I may put in some bread. If I do, warm it in your oven and it will be like new.

I have been trying to make one of my house dresses this week. Think I'll succeed in time

I ought to get every thing done possible before Slim comes as I'll be busier then.

There are some letters to send. Even one from Alice last week.

If your advisor knew your family better she wouldn't be surprised at your low mark in Music, would she? Glad you had the trip to Grand R. Its good to have a change? Nina thought "Lemon Lights" was great. Said she used up two haiky over it.

Janis just came in. She likes to go to neighbors evenings. Two old folks are not much company for her. I would have children in more if Dad didn't hate to hear the noise so much. They have played monopoly some. Clarks have moved away. I kind of hated to have Wesley go.

I think that is all the news.

Love. Mom
