Dear Shirley, - while ^{or cooking} supper Tuesday evening
Dad says not to worry you would have plenty of time to walk home between the fourteenth and Christmas. If it keeps on as it is tonight the walking will not be so good tho. Snow and more snow.
P.J.A. tonight. I hate to go but supposed I'll have to. Afraid we will have to walk Eleanor came over with the wash last night. The thought she had better not try the drive way and tried to turn around by driving into Galis drive way. Got stuck but fortunately the men from town came along just then and about a day, pushed her out. I dread the driving this winter for her. I told her she had better have Pete start to school then she would have him with her to help her out of snow banks.

I wish you would put the pie tins in your suitcase. I need them some times and if you dont need the clock I could use it. I loose an hour

sleep every morning wondering if it isn't
time to get up. It always is but I try to bluff
myself into thinking it isn't. Then I have
to try to hurry Bob which is quite a job.

On second thought we think you had
better find out if there is a bus out of Kal
that late. If it is such weather and roads
as this I know Dad would hate to drive.
If there isn't couldn't you stay over the one
night. I know you would hate to but it
would be an awful chore for him to drive
this weather. Couldn't you read and sleep
and store up some extra rest for the vacation.

Wed morn still snowing and blowing.
Have you the money you need if you come
home on the buss. Your mother had to call her P-T-A.
she & Mrs Dean were the only ones to leave the home
fires. Dad won't hate driving up there etill he
just won't do it.

Dad
