Dear Shurey. I guess after that scolding I had better get busy
have written quite a bit every day. Have had so many
line letters and cards. One from Aunt Cicie (the second
one) Nina, yours a card from Eva Liers and a bunch
of S. Havul papers this morning. I only wrote a card
to Nina last week. She wanted every thing in detail
so I took a long time and gave it to her as well as
I knew how. Am just studying that today she
may send it on to you. I have written so much
I probably repeat for its hard to remember just
what one has said and to whom.

Glad you mentioned the birthdays. I wouldn't
have thought. I am not sure of Cal's but I'll take
a chance on that being right. Their wedding
was the nineteenth of Feb. Aunt Ottas is the 20th
and the Brothers and Sisters are having a
party. Aunt Cicie wrote, wish I could be there.
I thought I would send her a nice card and
~~then my second thought I will write a letter. She~~
will enjoy that so much more. I am in hopes
to go home Sun. Haven't heard for sure from the
folks but I am sure I am well able to. May
not be strong enough to go right ahead with work
but can botch and do a lot of things. Neck is so well
healed Dr. said last night need not be banded
any more. I don't think it is going to be badly
scared. Still swollen but not nearly as much
as it was. Dr. said it would probably be three
months before all swelling was gone. I certainly
am very happy about it. I never really thought
it would ever be done.

Yes it is too bad about Arletta. To have their
plans all upset. I do hope it will turn out all right
and probably will. Things probably will pick

up in Spring Hill get another job. A few months
look so long to young folks. How long had he
been with Morris. Lots of folks have lost
their jobs lately or been badly cut in wages.
Ashley doesn't seem to be afraid of his
but lots have lost out in Chevrolet. He
is in truck end of it now and that is
going better than other departments.
I think you are being rushed to death.
Lucky you are not so busy. I think
you will like "Les Misérables" when you
get into it. I read it years ago. As very sad
as are most books of years ago. I read
"Anna Karenina" last winter. Did you see the
play. I did after reading the book. I know
nothing of "The Betrothed" who wrote it.
I have been reading "Kristin Lavransdatter"
that is early in the twentieth century in
Norway. Very interesting but very long
and so much unhappiness. I think
I prefer the nineteenth. tho they thought
they were very modern and of the
spoke of the order days.
Have been writing a long time, am
a bit tired, will have to go out and mail
this so you'll get this tomorrow.

Dad said the hadn't your address, of course he couldn't get it from me or Elva

Love, Minnie
