Mar. 2.

Dear Shirley,

This paper looks rather weather beaten but I guess it will have to do. How the wind blows this morning Nina says it will all spring. Has been like June for a couple of weeks. Grass getting green. I noticed a Judas tree in bloom on the way to town yesterday.

While I think of it, tell Jim I won't make his shirt until I get home. His pattern is there. Won't take long to make it some Sat. when he is over. Get tired of trying to fit folks 1200 miles away. Have a dress for both Kathy and Sharon ready to go. We are going down town as soon as Billie goes to sleep and I'll get some thing for Robin as his birthday is coming up the 16th, then we will get that off.

You folks are having your troubles. Keep a stiff upper lip (as I know you are) It probably will work out all right after while. We have had to take so many things like that on the chin, then start out again from there. One can think of so many things that might be worse but I don't know as that is too much help. The present worries are always so close.

One thing is certain you can take anything as long

as you take it together.

Did you think to discuss the baby bed problem
to the party.

Had a nice long letter from Mrs Hills yesterday.
They have been really doing things at the church.
New well, sink, flush toilets. Putting them in part
of furnace room and adding the old toilet room
to kitchen. Wonderful I think. I will be glad to be back
at the home church. Glad we will be there for Easter.

I went to the Baptist last Sunday. The minister was better
looking but I didn't like his sermon as well. I am
glad Jimmie has joined the choir and that he thinks
the preaching is good, we will have to come over
here some Sun. When he is going to be singing
Bill can hardly wait till time to start north. I don't wonder
that in that room all day with patient after patient,
six days a week, must be wearing. He refracted my
eyes yesterday. Decided there was no need to change
I was glad. Haven't heard whether any of the Bennett
children's clothes fit or not. I expect I'll have to make
some changes. I am afraid Jimmie will think
Billie is "worse" than Bebie.

Lunch time and I must get ready to go to town
Love. Mom

I am not going to read this over
