

July 16, 2002

Alan,

OK, I'll mail you the CD.

No thanks on the Observatory. I'm not interested in astronomy. I like to be aware of what's up there, but looking at little white dots does nothing for me. I'd rather look at dirt. Carol might feel differently.

We would like to see "Road to Perdition". I don't think we have any plans for the weekend. But if Carol's parents' cabin at Higgins Lake is available, we might go up there.

We should plan a weekend excursion before summer is over.

Steve
