Geneva (Smith, Lansing City Councilwoman),

My wife and I and the few neighbors we've talked to are not at all happy about the speed bumps being installed on Tecumseh River Road. Can you tell us whose idea it was and how the decision to install them was made? Are they going to be there permanently? How will snowplows deal with them in the winter?

We live on Tecumseh River and speeders have not been a problem for us. We also drive to work each day on Tecumseh, and we don't like bouncing over speed bumps.
