Amy,

Sorry about the missing .exe. I thought I was being so careful. But you can download it free from Microsoft's website. Look for TV Photo Viewer. Let me know if you can't get it and I will send it to you.

Are you annoyed with prospective employers for requesting writing samples?

What are benzodiazepines?

Got an e-mail from Kelli last week. She and Tom are thinking of coming to Boulder some time in the first 2 weeks of June. She says Tom was pretty "glum" this winter, but is better now that he can go outside and play. I'll have them let me know when they are going and see about coming at the same time.

We got all our new carpet and laminate in. I like it. The newly-painted walls and woodwork help, too. Next is the master bedroom and the bathroom. Then the back yard.

Love, Dad
