November 5, 2006

Chuck,

Thanks for giving permission to use your photos. You
have a lot of good people pictures. Have you see the 2
new pages I added? The links are at the end of the
story: "More of Chuck's photos" and "More of my
photos". With those, I did some more work yesterday,
displaying them as large as I could without
pixilation. Take another look.

I created the site myself, with Microsoft Outlook. I
taught myself at my last job, where I created an
internal website. I've got some of the basics down,
but I've got a lot to learn.

Steve
