

November 9, 2006

Dennis,

I don't like the way I was treated at MERS. In fact, there are a lot of former and current MERS employees who don't like the way they were treated. But I am not really that bitter. I just had the opportunity to get back at a boss that was abusive and conniving, and I enjoyed doing it.

I am glad you like the website. I use Microsoft Frontpage. All I know I taught myself at work, where I created an intranet for MERS.

Steve
