Deb,

We visited Mom today. Hadn't been able to reach her by phone, but we got that fixed. The phone cord wasn't plugged all the way into her phone base.

The complex is big and beautiful. She should be happy there if she can be happy anywhere that far from South Haven. She was looking great, as you can see from the pictures. She took us on a tour, so we did a lot of walking.

She does need more furniture. She has 3 chairs, and one of them is her desk chair. Her bed is there, but that's not comfortable to sit on. Carol thinks she needs a love seat.
