Rich [Robinson of the Michigan Campaign Finance Network],

I've been looking at BC/BS' triannual campaign statements on the SOS website and I am especially interested in the list of direct contributions. It appears that all their management-level staff have bi-weekly payroll deductions that are used to finance the BC/BS PAC. To do a thorough analysis, however, I would need to download the detail into a spreadsheet. If there were only a few hundred records, I could copy them off the website, but the record total for the Jan, July and Oct statements is 41,067. Is there an easy way to get those records?
