Amy,

Books are fine. Just seems a waste to buy them when you can get them at the library. I don't know exactly what printer I got. The receipt says it's a HP PSC4580 - maybe the PS is for PhotoSmart. It, too, is wireless. Everything I got is HP. The laptop - my receipt says it's a notebook, but I don't think it's that small - cost \$680. This is a great time to be buying stuff - cars, computers, etc.

We saw Milk and liked it. Haven't seen the others yet.

What are your plans for Christmas?
