Shirley,

I thought the picture was pretty good. Best of the 2 I had, anyway.

Did you see that one of the pictures for the Costa Rica trip was Jan's? It is the one of the 2 rivers, one yellow. I had seen them from the window of our bus, but didn't get a picture. And then Jan sent me a few pictures from their trip, and they included the one of the rivers. The yellow river gets its color from volcano runoff.

Steve
