Dear Eleanor.

Finally got your letter, which I had been looking for for the post two or three days, and also Wiskij's note.

Boy they sure are working us short course guys, they are trying to teach us a four year course in eight weeks. I am taking eight subjects besides boxing three times a week and agriculture engineering. I am in class at eight o'clock in the morning and have classes all the rest of the day until five o'clock.

I don't know what Johnny says are talking about, there are so many of them up here. My room mate is just another guy. He and another fellow and I went to the show at Tosning Sat. Night - Whisking Smith and Leonard that sent were the pictures. On the way home we saw a wreck

between a model T T & Ford Coupe and a 34
Chevrolet Coupe. Both were damaged but
the Chevrolet was the worst of the two. The
people were all cut to pieces. O yes it
happened just across the street from the
Sparrow Hospital so they were carried
over for repairs. I got a hub cap for a
souvenir from the Chevrolet.

The side walks are all ice up here and
everyone is slipping. How are you getting
along with Night School and what are you
taking - if you are going. I will be expecting
a picture of my room. I bet it will be about
a mile off, if it is I will have to send you
one of my expert drawings.

Lots of Love Lowell.

P.S. I have got to go pay
my board bill
