

Sunday 5³⁰ PM

Dear Family —

Here it is Sunday 'and I take my pen
in hand etc, etc' —

The enclosed clipping will tell you some
news about Paul Rankin, I intended to see him but
the big problem is that he works on the same
days I do. I'd rather see him in his office than at
home. But I am going to try to see him.

Last Galden, C, and I went out. A friend
of his from down in Ohio had to come up here on
business and he went with us. Galden seems to
feel fine and works all the time. Right now they
are having a strike where he works, but they work
just the same. It seems to me that the only
people in Detroit who haven't been on a strike
are the doctors & nurses. But maybe in time they
will strike, too. But I don't know what it
would be for — as it is we have a job convincing
people they them. Isn't funny how hard it is
to sell health to people?

Nancy is growing a lot, isn't she? And
what an amazing behavior she has, the day I was

down there she was a small baby most all
day. But as you say Ahie talks about her
too much in front of her.

And it seems to me that today is one
Robert Rice's birthday. I suppose he thinks he is
smart. But that's alright I can remember when
he was just a little wart.

I just called Elizabeth Watson and
she was as glad to hear my voice as I used to
be to hear a voice from home when I was training.
She is going to get in touch with Jean Hobbs and
they will probably come up here sometime soon.
Grace Hospital is just about six blocks down
Bush street from there.

Say, what about my monicure outfit
and my blouse?
I'm off now to knit a little.

Nina
